

West Chester Communities That Care (WCCTC) invites you to partner with us as we use **data-driven, evidence-based strategies to improve outcomes for local youth**. Together, as a coalition of business, education, faith, and healthcare professionals, we foster community-wide action to ensure a thriving future for youth, their families, and the greater West Chester area.

With the number of young people seeking mental health services on the rise, along with issues of substance use and family violence, there's no time like the present to join together in support of our local youth. West Chester CTC uses a three pronged approach, addressing the roles of **parents, peers and the community** to effect change and build resilience in our youth. At WCCTC, we start upstream from social issues and resources and programs that promote sound, healthy choices for generations of youth to follow.

Why CTC? By 8th grade, panel students from CTC communities were:

- 37% less likely to binge drink
- 33% less likely to smoke cigarettes
- 25% less likely to engage in crime

To become a Corporate Partner in Prevention, please return the attached form. Questions can be directed to our Community Mobilizer, Loretta Cohen at mobilizer@wcctc.org or 484-401-9226.

Together we can improve outcomes for youth.
